The Rhythm of Joy by Ann Marie Work

Joy is the celebration of life. It is the effervescence which moves through your being like the radiance of sunshine smiling through from the inside out. Joy is the fuel which drives creative ideas into materialization. It is the force which makes things happen in your life according to your desires. It is the energy to lift you out of depression, clear your perspectives on life and allow you to embrace and move into positive thoughts and actions.

People often ask, "What is my mission in life?" The answer to this question may seem complicated and difficult to grasp. Yet, it is simple. Your mission in life is to find what brings you joy, live what brings you joy and share this joy with others. When you live and share what brings you joy, your life will be fulfilled. You will be guided from the inside out, rather than by what someone else thinks is right for you or what you perceive someone else wants you to do.

When you are listening to your heart, the Rhythm of Joy begins like a radiant smile from deep within and moves through your being. This movement of energy creates a magnetic attraction for those people, things and events which bring your thoughts and ideas into physical reality. You are unique, and the gifts you came to share with the world are all those things which bring you joy.

Joy is the expression of Creative Love moving through your being and in your life. Suppressing your joy is the same as suppressing your creative energy. When you are out of joy, you are out of balance physically, mentally and emotionally. The body moves into a state of stagnation and dysfunction which can lead to chemical imbalances catapulting a person into depression and chronic degeneration. When you have

lost the Rhythm of Joy, it can seem like a spiraling descent into an abyss of no return.

The simplest way to restore your Rhythm of Joy is through movement and creativity.

How do you find joy once it has left your life? If the Rhythm of Joy is completely void in your life, the only way to restore it is through movement and creativity. Turn on some joyful music and let your body dance. Move. . . move . . .move. On the top of the list would be movement which includes balance such as Yoga, Tai-chi, Tai-kwando, Karate, etc. The more the body moves the better. Try dance lessons, belly dancing or join a fitness center. In addition, do something creative everyday. This could include taking classes, discovering your creative talents, playing with children, volunteering in community projects or becoming involved in something greater than yourself. You can begin with simple things such as creating a new hair style, cooking, writing letters to friends and family or planning a party. Just be creative.

You may want to start a journal and title it: ***What brings me joy?*** Write in it every day, even if it is only one or two sentences. Then begin to expand this topic by describing how you express your joy. Include short and long term plans to create experiences which would bring you joy. An example would be to list goals such as: It would bring me joy to assist with the project Habitat for Humanity. Then list the steps to accomplish the goals and when you plan to carry out these steps. To restore the Rhythm of Joy to its full potential takes a concentrated effort, but it is well worth every minute you spend on it. To once again embrace life to its fullest, is the greatest reward of all.

Plus - harmonize and assist to reverse the effects of chemtrails and Morgellons.

• Awaken and revitalize the dynamics of your personal core power within as you continually remove and harmonize layers of interference that have created many forms of limitation and disconnection such as mental and physical fatigue, lethargy, creative stagnation, brain fog. Awaken your original blueprint of creativity, positive patterns of life, vitality and sense of self.

The Vitalizers are designed to assist in clearing and transforming disharmonic, life-suppressing energetics from:

- Your home: the people, pets, water, food, supplements, plants, crystals and all elements of life.*
- Your computer, TV, video games, cell phone and all devices connected to incoming digital, WIFI, cyber energy or preprogrammed energy patterns.*
- Your appliances that have become embedded with harmful energy patterns coming in through electrical connections.*

Recommended Uses:

1. Place Vitalizer on or under the modem/router coming into your home, or somewhere on your computer.

A Vitalizer can be placed on the TV box, or anywhere on your computer to transform the disharmonic energy patterns of the signals entering your device. If it is placed on the modem/router it transforms the energetics before reaching your devices. It may take up to 2-4 weeks to completely clear the layers of energetics embedded into your devices. Continued use will assist in keeping them clear. The cleared devices will continuously send clear harmonic energy into the space and objects around them, creating a harmonic revitalizing environment within your home and office space.

2. If you own a set of Environmental Harmonizers, place the Vitalizer under the four columns sitting together to make a square with the logos on the columns each facing outward in a different direction. *(Add a 1/2 oz. of Harmonic Liquid Peace laying on top of the Environmental Harmonizer set for a wonderful soothing harmonizing effect.)*

The Environmental Harmonizers create a vortex of harmonic energy that will cover your entire home and everything in it. By placing the Vitalizer under them, the energetics of the Vitalizer will be sent throughout your home, office, etc.

3. Additional Vitalizers may be placed in specific places to clear and harmonize embedded disharmonic cyber energies and restore a natural flow of harmonic, life supporting energy:

Start with (1) for the home – preferably under an Environmental Harmonizer, (1) for your office space – at home and/or at work – either under an Environmental Harmonizer or on the computer modem/router, (1) under the driver's or passenger's seat of each vehicle, (1) to carry in your purse or backpack or use for therapeutic healing sessions. After 2-4 weeks you can add (1) to move around to clear individual items, (start with the refrigerator) (1) on top of a whole house water purifier, (1) in or on the electrical circuit box, (1) on the floor next to furnace/ air exchanger.
