The Divine Rhythm of Organization - by Ann Marie Work

The Divine Rhythm of Organization is the last of the twelve rhythms. It is the rhythm of alignment, order, organization and structure. When this Rhythm fills your being it restores a sense of perfection throughout your body, mind and personality. It opens you up to see the magnificence of who you are and the magnificence of the situations in your life. This broadens your perspective on life, allowing you to let go of those things which no longer serve you and embrace those things in alignment with your soul.

This Rhythm emanates from the core of your being, through the sacroiliac and sacrum into the spinal column and out through the neuro-muscular system to the rest of the body. It is a key element in maintaining a vital cranio-sacral pulse and other functions throughout the body.

This is the Rhythm of acceptance. When you accept the magnificence of who you are from deep within, it allows you to perceive the magnificence of those around you. As your perceptions begin to change of yourself and the world around you, it allows you to give up anger, fear, rage and frustration with yourself as well as others. Lack of self acceptance is probably one of the greatest dysfunctions in our society today. On one end of the spectrum it leads to drug and alcohol abuse. On the other end it leads to limitation, lack of self worth and self-suppression. It is the root of egotistical and bullish behavior. When individuals appears to be “full” of themselves, the truth is, they are usually covering up their insecurities.

Picture the innocence of a little child in your mind who openly embraces life and shares their excitement with anyone who will listen. Their whole body is full of life and they bring delight to everything around them. They know that they are magnificent and embrace the magnificence of everything around them. They live from the divine nature within as they discover the world

around them.

As a person grows up and begins to experience the dysfunction of the fears and judgments around them, this innocence fades. According to the Bible Jesus said, “Except ye become as little children, ye shall not enter into the kingdom of heaven”.

One of the hardest challenges of adulthood is to let go of all those experiences of when you have gotten hurt as a result of your response or someone else's reaction to fear and judgment. This can create a cascading avalanche of defense mechanisms which can lead to systematic responses of rage, anger, guilt, blame, unforgiveness, anxiety, worry and depression.

The further one moves from being in alignment with the magnificence of the soul, the more closed minded and argumentative one becomes. The deep seated bitterness and disappointment magnify with each situation that is magnetically attracted into daily life, propelling a person further and further from peace, joy and fulfillment. The road back to contentment begins with the Divine Rhythm of Peace and the acceptance of the magnificence that lies within.

On a physical level, the suppression of this Rhythm can lead to dysfunctions in the neuro-muscular system and cranio-sacral system. It assists in aligning the nervous system with the rest of the body, restoring the physical strength and integrity of interactions between systems. The uninterrupted neuro transmissions throughout the body create the perfected synchronization of vitality on every level of physical health - we call this physical perfection.

Increasing the perfection on one level of your being increases it on all levels. Move into the Breath of Life and allow your life to be a reflection of the Divine Magnificence within. ***Harmonic Liquid Organization inspires the Divine Rhythm of Organization within you.***

Empowerment

by Ann Marie Work

As I focused on the Divine Rhythm of Organization, I began to contemplate the subject of Empowerment. I define empowerment as moving in the power and strength within to perceive and define the magnificence within yourself and others, and hold it sacred. I call this “honor”. There is nothing more divine than to honor yourself and all others. It is a lesson which faces many over and over again.

Can I step free of fear and judgment, to value myself and others enough to stand in my power and strength to demand honor in all situations? Whew! What a mouthful. This is one of those statements which seems easier said than done. It is so easy to slip into old patterns of regret, guilt, self-condemnation and overall “poor me”. Is it possible that the true root of being the victim is simply failing to honor one’s self and place the blame on another? As I have thought this through the following points came to mind.

- ***Embracing your Magnificence gives you the power and strength to stand in your truth.***

Until a person acknowledges and embraces the Magnificence within, where do they draw their power and strength from? It would have to be from a dysfunctional place of fear and judgment. This would lead to an inappropriate use of power and strength creating dysfunctional behavior and dysfunctional situations in life—either being the bully or the victim depending on the situation. They always wonder why life is never as they think it should be.

- ***To honor yourself is to never allow another to place their power and control over you.***

This means to move out of judgment and into discernment, (*See Oct. '16 “In Harmony” on Discernment*) and use the power and strength within to move out of situations out of alignment with your truth. So what do you do when you find yourself in a situation where you do not feel honored? This is a very relevant question, especially if it is your job or your marriage. The first thing to do is focus on yourself rather than point your finger at someone else. You have allowed yourself to get into this situation and it is up to you to get yourself out. Embrace your magnificence, recognize your value. If you fail to recognize your value how can you expect anyone else to? Once you have defined and embraced your value, make a plan. Decide what it is you want. Where are you feeling dishonored or disrespected? What would it take to turn this around? Begin with what is most important to you. The small things usually work themselves out once honor has been restored. It would be real easy at this point to say, “I will just quit and go someplace else”. The problem is, many have done this only to discover that the same thing happens all over again.

Why, because they have not yet embraced their value and moved into honoring themselves. Once you know what it is that you want, the next step is communication. To get where you want to go you must honor the other people involved in the situation by talking to them. Let them know what is bringing you distress and enlist them in working with you to bring about a harmonic resolution for all concerned. If this fails, the only way to honor yourself may be to remove yourself from the situation.

- ***Embracing your magnificence is the only way to discover your Truth.***

How can you honor yourself or others if you do not know what the truth of your divine nature is? I think back to years ago when embracing my magnificence was totally foreign to me. I had no concept of what that meant and no idea where to begin. At first it seemed wrong, almost like it was a bad thing to do. It sounded egotistical and vain. Then I realized that I was a child of God and I had been taught that I was created in the image of God. That in itself made me magnificent and opened the door for me to discover the many facets of Love within me. This allowed me to find my truth and use the power and strength within me to stand in that truth. When I began to honor myself, it became easy to honor others and my life changed. ***Harmonic Liquid Formulas inspire the Rainbow of Divine Rhythms within you.***

**Release deeply embedded disharmonic emotional energies,
to help bring *Balance* and stability in the systems of the body!**

The skeletal, muscular, reproductive, digestive and fat storing systems are all inter-related. Imbalances in these systems lead to physical weakness, overall distress and weight problems. Scientific studies show that imbalances in these systems stem from survival issues and when you experience stress your body reacts according to its survival instincts. Releasing the stress within the emotional body, by using harmonic energies to restore the resonance of acceptance, creativity, self-esteem, trust and security plus other positive attributes, while stimulating the energy within the glandular system, restores the natural flow of energy to re-establish overall

Relieving the buildup of negative electrical charges within the emotional body, restores the natural flow of energy, re-establishing balance and harmony, which creates a positive affect on the overall level of wellness, rejuvenation, strength and tone of your body.

rejuvenation, strength and tone to your body. Many struggle with weight, trying one exercise and diet program after another with no lasting results. May I suggest, when the emotional body is in balance it will be easier to tone, strengthen and sculpt your body according to your desire. Using the *Body-Balancers* along with a good diet and exercise program may give you the edge you have been looking for. Many report they actually gained weight in the beginning as muscle tissue was building and fluids rebalanced. Then as the body began to tone and strengthen, excess weight began to drop. - Ann Marie Work

Reconnect to the flow of Life Ions within Creation -

The respiration of the Breath of Life between you and the Life Force Energy of Divine Love within Creation may be more important than oxygen itself!

The Breath of Life is the inhale and exhale of "ions of life", that have been in the Universe since the beginning of time. Scientists and those working with quantum physics are just now discovering this element of life, photon energy, that has not until recently been measured and quantified; but is now believed to be the basis of life itself - the element of vitality and rejuvenation that can explain the power of spiritual healing and wholeness.

Suggested Uses:

Personal Rejuvenating Techniques - place the Breath of Life Rejuvenator:

- Over Heart Center - to transform and harmonize interfering harmful energies while restoring Life Ions in the blood and tissues within the heart.*
- Over a chakra, energy center of the body or acupuncture point – to transform and harmonize disharmonic energetic interference and restore the flow of Life Ions in proper rotation and balance.*
- Over any distressed part of the body – to transform and harmonize energy fields and reduce discomfort.*
- To increase the rejuvenation process: place your fingertips on the Rejuvenator while it is placed on the body. This assists in harmonizing and restoring the energy meridians, increasing the flow of Life Ions throughout your cells and systems throughout the body.*
- In addition, a drop or 2 of a Harmonic Liquid Formula of your choice can be placed on top of the Rejuvenator.*
 - Harmonic Opal or Harmonic Peace are always good choices.*
 - The formula matching the chakra color or energy center is also good.*

Examples: Harmonic Intuition on the Rejuvenator over the 3rd eye.
Harmonic Harmony on the Rejuvenator over the tailbone.

NOTE: Use as desired but not continually all day or night as this may cause excessive cleansing.

Environmental Rejuvenating

Use the four columns of the *Environmental Harmonizer* plus the *Breath of Life Rejuvenator*:

Place the four columns of the *Environmental Harmonizer* together with a logo facing outward in each direction. Band together. Then place the *Breath of Life Rejuvenator* on top. The harmonizers create a vortex of energy to encompass your home and carry the Life Ions and harmonizing energies of the *Breath of Life Rejuvenator* throughout your environment.

As energies in your environment begin to clear and harmonize, the sphere of Life Ions “Photon Fountain” enlarges. Within a few weeks this sphere may expand to include and cover your home, yard and everything in it - people, pets, plants, water and electrical systems and appliances, etc.

At first, you may desire to place this next to your bed at night, to enhance and harmonize your being while you sleep. During the day, move it to the center of your house.

You may also desire to add a *Harmonic Vitalizer* between the *Environmental Harmonizer* and the *Breath of Life Rejuvenator*:

--- to speed up the process of Harmonizing the destructive foreign angular particles and grids within your energetic bodies which have come from the cyber digital technology, WIFI, ELF, HAARP, chemtrails and Morgellons. See www.harmonicsinternational.com - *Vitalizer*, for more information.

Personal Rejuvenating

Use the Breath of Life Rejuvenator, a set of 4 Environmental Harmonizers and Harmonic Liquids.

Place the *Breath of Life Rejuvenator* under a chair or massage table on the floor centered underneath you. Place one column of the *Harmonizers* by each leg with the logos facing inward. Then sit or lay down for 10 to 15 minutes -- just long enough to clear and balance the meridians and chakras. These can also be used during a one-hour massage or healing treatment -- for yourself and others. (May desire to do daily.) *In addition, a Harmonic Liquid Formula of your choice can be placed on top of the Rejuvenator. Harmonic Peace or Harmonic Opal are really good choices, however, any one of the Formulas can be used -- read the label on the liquid Formula to determine which qualities you desire to enhance.*

Open a continuous flow of energy in all energy systems of the body with Harmonic Liquid Opal!

- *Transmute energy blockages creating pain, leading to degeneration.*
- *Open the flow of energy in and around damaged tissue to allow the cells to be properly cleansed and fed to enhance the body's natural healing process.*
- *Open and activate the movement of energy within the energy centers and circuits of the body.*
- *Harmonize disconnection, fragmentation, etheric blockages, negative spiritual energies and patterns.*

Suggested Uses: Enhance the movement of photon energy, stimulating the movement of the Life Ions throughout the cells and systems of the body: *Take 5-10 drops under tongue or in water 2 times a day or as desired. Put drops on pulse points. Use with the NEW Breath of Life Rejuvenator as mentioned above.*
