The Divine Rhythm of Intuition

Reconnect your “brain” with your “inner voice” and Wisdom of the Universe.

The Divine Rhythm of Intuition serves as a guiding light within you. It activates your intellect, inner wisdom and knowing, to gather information from your senses and make sense of your world. This gives you the ability to analyze, compare, draw conclusions, rationalize and create appropriate expressions in your life. From this information you develop attitudes, characteristics and your personality.

The Divine Rhythm of Intuition moves from the core of your being through the sphenoid in the center of your head, out into the nervous system and into the body. It connects the physical computer brain with the wisdom and information from the soul. This allows you to think, create and perceive far beyond the information being brought in through your five senses into the brain.

The Divine Rhythm of Intuition balances the left and right hemispheres of your brain, allowing you to accept life and make the best of all situations as they are presented to you. It helps you to control your doubt and indecision, opening your ability to trust your self and trust the world around you to make the best decision for your journey in life. As you open your perception to see the bigger picture, you move into your strength to stand in your truth and choose appropriate actions in the moment. This builds your confidence to step forward to embrace life, putting aside your fears and judgments to break through the bonds that have held you in separation from your desires and move past the limitations which have only been an illusion.

Many people refer to their “intuition” as their “inner voice”. They perceive guidance or knowing coming from deep within their being. When you move into that place of peace, you move into the calming presence of the wisdom within and your body gently begins to move into the Divine Rhythm of Intuition. Your intuition is

the “knowing” created when your conscious awareness unites with your inner wisdom. When you trust your intuition you are trusting the wisdom of the internal guidance coming from your soul, propelling you along your journey in life and into your destiny.

When you trust this inner guidance, it is called “listening to your heart” rather than your mind. It removes confusion and you feel uplifted and encouraged from the inside out.

The Divine Rhythm of Intuition is perceived as indigo. It is a color similar to the night sky filled with stars. The stars represent the individual pieces of wisdom within, too numerous to count. The more you are connected to your intuition, the more others perceive you as having luck, the magic of miracles happening in your life and an enormous amount of common sense.

When this Rhythm is disrupted, it is often perceived as being fragmented, scattered, hyper, mentally or emotionally imbalanced. Often a hyperactive child (ADHD, ADD) has enormous connection to the Divine Rhythm of Intuition, but is unable to sustain a balance with it within their reality. This may be due to toxins formed from immunizations, chemicals such as additives, preservatives or pesticides or imbalances in their blood sugar. To correct these situations requires a rebalancing of the cranio-sacral rhythms to assist in aligning the hemispheres of the brain and reestablishing the Divine Rhythm of Intuition by restoring the Breath of Life within the sphenoid in the center of the head. Harmonics International offers several products to assist in this process. Two of the most important are the *Full-Body Activators* and the *Harmonic Liquid Formula Intuition*.

Moving into the Divine Rhythm of Intuition

Turn on soft relaxing music*.

Sit upright on a firm chair, so your back is a few inches from the back of the chair.

Pay attention to your breathing.

You can feel your lungs expanding and contracting as you inhale and exhale.

Begin to gently rock back and forth in rhythm with the waves of the Breath.

Focus on the air entering the nose and moving into the lungs,

Then leaving the lungs and out through the mouth.

Open your solar plexus gently as you inhale, relaxing as you exhale,

Letting your whole body breathe with you, into the waves of the Breath and into the Peace.

Focus on the word Intuition allowing the calm, peaceful strength to fill your being

And move on the waves of the Breath

Into the Heart,

Then up through your chest, and across your shoulders,

Down your arms, into your hands and fingers,

Up your neck,

Into the center of your head,

Across your face, in your eyes,

Through your mouth, jaw and neck,

Into your atlas at the top of the spine,

Cascading down and through your spine,

Through your back, sacrum, sacroiliac and hips,

Into your tailbone and pelvic cradle,

Moving down through your thighs and legs, and into your feet and toes,

Up through your abdomen,

Across your solar plexus, back into your heart,

Then back to your spine and cranium, breathing together as one.

Perceive the movement of this gentle rhythm embrace your whole being.

Lift your arms and let your body begin to describe this feeling in movements,

Describing what intuition feels like with your body, without words.

Then begin to define in your mind what you are feeling using harmonic adjectives such as clarity, support, etc.

Return to your heart center and sit quietly, embraced in the Waves of the Breath,

Your solar plexus gently opening as you inhale, relaxing as you exhale,

Letting yourself be filled with the pure essence of wisdom from deep within,

As you contemplate on what listening to your inner wisdom and intuition means to you.

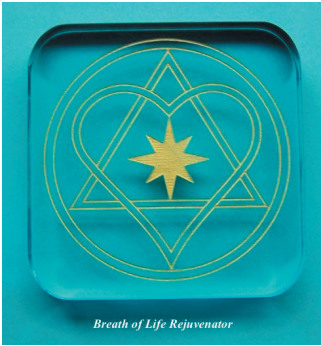

Finish with a proclamation, *"I embrace the magnificence of my Soul. And so it is.*

Rejuvenate the Breath of Life in your body, mind and emotions.

- *Harmonize angular, toxic disharmonic energy back to the fluid ionic wave of positive Life Force energy.*
- *Harmonize irregular wave patterns in neurotransmitters of the brain and nervous system, while restoring and synchronizing the body's natural pulses and rhythms.*
- *Dismantle disharmonic energy grids of limitation, suppression and disempowerment to restore motivation, upliftment, freedom and empowerment throughout your being.*

The respiration of the Breath of Life between you and the Life Force Energy of Divine Love within Creation may be more important than oxygen itself!

The Breath of Life is the inhale and exhale of "ions of life", that have been in the Universe since the beginning of time. Scientists and those working with quantum physics are just now discovering this element of life, photon energy, that has not until recently been measured and quantified; but is now believed to be the basis of life itself - the element of vitality and rejuvenation that can explain the power of spiritual healing and wholeness.

Suggested Uses:

Personal Rejuvenating Techniques - place the Breath of Life Rejuvenator:

- Over Heart Center - to transform and harmonize interfering harmful energies while restoring Life Ions in the blood and tissues within the heart.*
- Over a chakra, energy center of the body or acupuncture point - to transform and harmonize disharmonic energetic interference and restore the flow of Life Ions in proper rotation and balance.*
- Over any distressed part of the body - to transform and harmonize energy fields and reduce discomfort.*
- To increase the rejuvenation process: place your fingertips on the Rejuvenator while it is placed on the body. This assists in harmonizing and restoring the energy meridians, increasing the flow of Life Ions throughout your cells and systems throughout the body.*
- In addition, a drop or 2 of a Harmonic Liquid Formula of your choice can be placed on top of the Rejuvenator.*
 - Harmonic Opal or Harmonic Peace are always good choices.*
 - The formula matching the chakra color or energy center is also good.*

Examples: Harmonic Intuition on the Rejuvenator over the 3rd eye.
Harmonic Harmony on the Rejuvenator over the tailbone.

Environmental Rejuvenating

Use the four columns of the *Environmental Harmonizer* plus the *Breath of Life Rejuvenator*:

Place the four columns of the *Environmental Harmonizer* together with a logo facing outward in each direction. Band together. Then place the *Breath of Life Rejuvenator* on top. The harmonizers create a vortex of energy to encompass your home and carry the Life Ions and harmonizing energies of the *Breath of Life Rejuvenator* throughout your environment.

As energies in your environment begin to clear and harmonize, the sphere of Life Ions "Photon Fountain" enlarges. Within a few weeks this sphere may expand to include and cover your home, yard and everything in it - people, pets, plants, water and electrical systems and appliances, etc.

At first, you may desire to place this next to your bed at night, to enhance and harmonize your being while you sleep. During the day, move it to the center of your house.

You may also desire to add a *Harmonic Vitalizer* between the *Environmental Harmonizer* and the *Breath of Life Rejuvenator*:

--- to speed up the process of Harmonizing the destructive foreign angular particles and grids within your energetic bodies which have come from the cyber digital technology, WIFI, ELF, HAARP, chemtrails and Morgellons. See www.harmonicsinternational.com - *Vitalizer*, for more information.

Personal Rejuvenating

Use the Breath of Life Rejuvenator, a set of 4 Environmental Harmonizers and Harmonic Liquids.

Place the *Breath of Life Rejuvenator* under a chair or massage table on the floor centered underneath you. Place one column of the *Harmonizers* by each leg with the logos facing inward. Then sit or lay down for 10 to 15 minutes -- just long enough to clear and balance the meridians and chakras. These can also be used during a one-hour massage or healing treatment -- for yourself and others. (May desire to do daily.) *In addition, a Harmonic Liquid Formula of your choice can be placed on top of the Rejuvenator. Harmonic Peace or Harmonic Opal are really good choices, however, any one of the Formulas can be used -- read the label on the liquid Formula to determine which qualities you desire to enhance.*

Open a continuous flow of energy in all energy systems of the body with Harmonic Liquid Opal!

- *Transmute energy blockages creating pain, leading to degeneration.*
- *Open the flow of energy in and around damaged tissue to allow the cells to be properly cleansed and fed to enhance the body's natural healing process.*
- *Open and activate the movement of energy within the energy centers and circuits of the body.*
- *Harmonize disconnection, fragmentation, etheric blockages, negative spiritual energies and patterns.*

Suggested Uses: Enhance the movement of photon energy, stimulating the movement of the Life Ions throughout the cells and systems of the body: *Take 5-10 drops under tongue or in water 2 times a day or as desired. Put drops on pulse points. Use with the NEW Breath of Life Rejuvenator as mentioned above.*

***Harmonic Liquid Opal NOW On Sale thru Nov.'16 - Only \$50 ea. 2 oz. - \$15 ea. 1/2 oz.

Rejuvenate the Breath of Life in your body, mind and emotions with the *NEW Breath of Life Rejuvenator!*

Due to a myriad of disharmonic factors, the basic flow of Life Ions - the wave of the Breath of Life within our cells and systems may have been diminished, altered or comprised. This can result in distortions or disruptions in our physical, mental, emotional and energetic bodies resulting in distress on any and all levels of our being.

- **Physical and Energetic Body:** The physical body has an amazing etheric energy system. When this system is functioning in perfect order, we move in a natural state of healthful vitality calling forth the things and experiences we desire in Divine Love.

- **Mental Body:** The mind, brain and creative thought process is imperative to basic human function. When this system is functioning in harmonic order, there is divine rhythm between knowledge, wisdom, intuition, discernment and conscious awareness with a steady untiring stream of positive thought patterns. This creates an environment for creative thought, motivation, stability and positive action. Disharmonic grid patterns can cause interference and constriction in neurotransmitters in the body leading to mental confusion, brain fog, depression, fatigue and despair.

- **Emotions and Emotional Body:** The natural, original emotions can be seen in a baby. They consist of Peace, Joy, Harmony and Love, plus the multitude of subsets of these basic emotions. Disharmonic emotions are created from reactions to disharmonic life experiences as well as disharmonic cyber frequencies that include subliminal and hypnotic suggestions. When the nerves work as a flow line for the transmission of disharmonic electromagnetic signals, it can leave you feeling sad, depressed, angry, fearful or anxious.

Due to stresses from toxic disharmonic energies, that are foreign to the natural vital state of being, the systems begin to degenerate, fragment and disconnect. The perfect blueprint for these systems lies within the core of our Being. The key to rejuvenation is to transform these angular disharmonic particles and grids back to fluid life force energy encouraging the return to a natural flow of Life Ions - wave of the Breath of Life.

Within the stillness of Divine Peace,
there is always the Breath of Life
- the movement of consciousness from one to another -
the fluidity of awareness, inspiration and Divine upliftment
from the Heart and Mind of God to you
and from your sacred acknowledgment, back to the Heart and Mind of God,
ever expanding the continuing knowledge of the Divinity of Self.
From Symmetry of Divine Love

Strongest Frequency Wins

Everything in our reality vibrates at a frequency. This frequency can be harmonic or disharmonic. Today we live in a world full of disharmonic frequencies – from toxic air, water and soil pollution to toxic vibrational cyber frequencies. Fortunately we still live in a Universe where strongest frequency wins. A harmonic frequency will always transform a disharmonic frequency into a harmonic form. *Example:*

- *drops of Harmonic Peace will transform water back to its original Breath of Life
(and you can feel and taste the difference immediately)*
- *drops of Harmonic Joy will transform chemicals in food and body products
(and by placing a few drops in wine or a Soft Drink you can immediately taste the difference)*
- *and this is true for all of the Harmonic Liquid Formulas*

- *The energies of digital technology may add frequency to our energy field, hindering the body’s ability to function properly.*

The *Harmonic Rhythms of the Rainbow of Life* are the tangible elements of your actions and interactions with everything in your life. Harmonic Opal, Confidence, Creativity Triad - Pre-mixed In a Bottle

(All three LIQUID *Harmonic Formulas* in one Cobalt Blue Glass Dropper Bottle)

Individually or Pre-Mixed - On Sale Nov.'16! - \$50.00 ea. 2 oz. - \$15.00 ea. 1/2 oz.!

THIS Triad seems VERY IMPORTANT in providing assistance in the removal of some very disruptive energies that we encounter every day, that can easily become lodged in the cells:

- *The energies of digital technology may add frequency to our energy field, hindering the body's ability to function properly.*
- *The airborne pollution from Chemtrails and other chemicals are also making it very difficult for our bodies to function properly.*

**These things have been going on for quite some time,
so why the interest in clearing them now?**

The body has an innate ability to protect itself from foreign materials and energies by stashing them away so the body can function as best as possible. After a while of continual bombardment, it becomes difficult for the body to store and protect. That's when we begin to have difficulty functioning efficiently - and we notice it in how well our body works and feels.
