The Divine Rhythm of Security

Restore health and serenity in your body, mind and emotions.

The Divine Rhythm of Security is a rhythm of empowerment. The resonate frequency of this Rhythm emanates from the trachea through the lungs and out into the body with each Breath that you take when the Divine Rhythms of Joy and Balance are present. It is an expression of trust and confidence in the Divine support of your being - knowing that you are safe at all times cradled in the Heart and Mind of God.

This feeling of safety opens up consciousness within you to perceive the possibilities and options available to you in all aspects of life. It encourages positive thought and action rather than a negative focus. It uplifts your emotions assisting in the movement out of despair and loss. It opens your awareness to perceive your reason for living.

This Divine Rhythm of joyful balance gives you peace of mind with yourself, your actions and your life. It awakens an awareness within you of the magnificence of your soul, allowing you to know, experience and share the love within you at greater depths while embracing gratitude for each moment. This gentle sweet Rhythm moves you into the in breath and out breath of receiving and giving encouragement and acknowledgement—creating a flow of energy to open new paths of discovery and accomplishment while turning your natural talents into useful skills.

It is directly connected to the flow of the Breath of Life through the body. In addition, it is the same frequency as the element of sulfur, which influences the longevity of the physical body. Remember the story of Ponce de Leon? His famed fountain of youth was a natural artesian well of sulfur water.

It is the emotions of insecurity, injustice and despair which interfere with your natural Divine Rhythm of Security, suppressing the mechanisms of physical health and vitality. When these emotions are prevalent,

the stress creates a chemical imbalance within the body, weakening the immune system and creating distress within the respiratory, lymph and intestinal systems. Common reactions and physical conditions related to this stress are craving sugar, indigestion, intestinal conditions, decreased metabolism, weight gain, water retention, distress in the lungs, bronchi, trachea and sinuses, allergies, sluggish lymph flow, bladder infections and a slowing down of the cleansing of toxins within the body. These combined reactions often lead to excessive fungus growth, Candida and parasitic invasion on a cell level, which in turn decreases the presence of joyful balance in the body, mind and personality, creating a vicious cycle and downward spiral into physical, mental, and emotional despair and limitation.

The Divine Rhythm of Security is soft and gentle and at the same time can be one of the most powerful Rhythms of all. As it lifts you out of despair and limitation, it awakens an understanding of how to move into the flow of grace upon this Earth. What may appear to be a magical moment or even a miracle is often the Breath and movement of Security throughout the body, mind and personality. Opening avenues of change in your life, it moves you into this Universal flow of life. It can lift you out of rigidity into flexibility and resiliency helping you to let go of those things which no longer serve you. It is within this Rhythm that you feel safe to let go of negative, outdated beliefs and irrelevant perceptions based on erroneous reference points.

***As you begin to trust and experience
the magnificence of your Soul,
you begin to feel safe.***

***Like being cradled in the arms of Creation,
insecurity gives way to security
and serenity fills your being.***

Moving into the Divine Rhythm of Security

Turn on soft relaxing music*.

Sit upright on a firm chair, so your back is a few inches from the back of the chair,
and begin to gently rock back and forth.

Pay attention to your breathing.

You can feel your lungs expanding and contracting as you inhale and exhale.

Focus on the air entering the nose, going through the trachea and into the lungs,
then leaving the lungs, going through the trachea and out the mouth.

Open your solar plexus gently as you inhale, relaxing as you exhale,
letting your whole body breathe with you, into the waves of the Breath and into the Peace.

Focus on the word security and perceive the gentle, strong sense of serenity fill your being

And move on the waves of the Breath,

Into your heart,

Up through your chest, and across your shoulders,

Down your arms, into your hands and fingers,

Up your neck and into the center of your head,

Across your face, in your eyes,

Through your mouth, jaw and neck,

Into your atlas at the top of the spine,

Cascading down and through your spine,

Through your back, sacrum, sacroiliac and hips,

Into your tailbone and pelvic cradle,

Moving down through your thighs and legs, and into your feet and toes,

Up through your abdomen,

Across your solar plexus, back into your heart,

And out through your body, into all of the fluids and tissues of the body.

Perceive the movement of this gentle embrace of joyful balance and serenity filling your being.

Lift your arms and let your body begin to describe this feeling in movements,
describing what security feels like with your body, without words.

Then begin to define in your mind what you are feeling using harmonic adjectives such as safe, free, liberated, etc.

Return to your heart center and sit quietly, embraced in the Waves of the Breath,

your solar plexus gently opening as you inhale, relaxing as you exhale,

letting yourself be filled with a sense of security and serenity from deep within,

as you contemplate on what security means to you.

Finish with a proclamation, *“Divine Security is the expression of trust and confidence in the Divine support of your Soul-Self - knowing you are safe at all times, cradled in the Heart and Mind of God.”*

Harmonic Vitalizer - Now On Sale thru Sept. 2016 - Over 25% OFF!!

(2 1/2"x 2 1/2"x 3/8" square colored engraved acrylic)

Harmonize the destructive negative energetics of cyber energy, digital technology, WIFI, cell and TV towers, GPS, ELF, HAARP and similar disharmonic energetic waveforms and patterns.

Plus - harmonize and assist to reverse the effects of chemtrails and Morgellons.

- *Awaken and revitalize the dynamics of your personal core power within as you continually remove and harmonize layers of interference that have created many forms of limitation and disconnection such as mental and physical fatigue, lethargy, creative stagnation, brain fog. Awaken your original blueprint of creativity, positive patterns of life, vitality and sense of self.*

The Vitalizers are designed to assist in clearing and transforming disharmonic, life-suppressing energetics from:

- *Your home: the people, pets, water, food, supplements, plants, crystals and all elements of life.*
- *Your computer, TV, video games, cell phone and all devices connected to incoming digital, WIFI, cyber energy or preprogrammed energy patterns.*
- *Your appliances that have become embedded with harmful energy patterns coming in through electrical connections.*

Recommended Uses:

1. Place Vitalizer on or under the modem/router coming into your home, or somewhere on your computer.

A Vitalizer can be placed on the TV box, or anywhere on your computer to transform the disharmonic energy patterns of the signals entering your device. If it is placed on the modem/router it transforms the energetics before reaching your devices. It may take up to 2-4 weeks to completely clear the layers of energetics embedded into your devices. Continued use will assist in keeping them clear. The cleared devices will continuously send clear harmonic energy into the space and objects around them, creating a harmonic revitalizing environment within your home and office space.

2. If you own a set of Environmental Harmonizers, place the Vitalizer under the four columns sitting together to make a square with the logos on the columns each facing outward in a different direction. *(Add a 1/2 oz. of Harmonic Liquid Peace laying on top of the Environmental Harmonizer set for a wonderful soothing harmonizing effect.)*

The Environmental Harmonizers create a vortex of harmonic energy that will cover your entire home and everything in it. By placing the Vitalizer under them, the energetics of the Vitalizer will be sent throughout your home, office, etc.

3. Additional Vitalizers may be placed in specific places to clear and harmonize embedded disharmonic cyber energies and restore a natural flow of harmonic, life supporting energy:

Start with (1) for the home – preferably under an Environmental Harmonizer, (1) for your office space – at home and/or at work – either under an Environmental Harmonizer or on the computer modem/router, (1) under the driver's or passenger's seat of each vehicle, (1) to carry in your purse or backpack or use for therapeutic healing sessions. After 2-4 weeks you can add (1) to move around to clear individual items, (start with the refrigerator) (1) on top of a whole house water purifier, (1) in or on the electrical circuit box, (1) on the floor next to furnace/ air exchanger.

“The Veils of Illusion!” by Rich Work

You have lived in a world of separation, where power has been used to control humanity. Distortions, illusions, thought forms and other energies have been designed to create holographic veils obstructing your ability to see your truth.

It is time to remove the veils of illusion.

“At this crucial point in time, it is important we learn to listen and discern with our hearts instead of our conditioned minds. This book is a practical guide to doing that. If you want to discover Truth on many levels and be empowered to make choices which support you and the planet, read this book.” --Marsha L. Green, Ph.D.
